CONFERENCE BOYS BASEBALL SPECIFIC RULES

Section 15 - Game Ball

Any official top grade baseball is to be used with a minimum of three baseballs per game. A National or American League baseball is recommended.

Section 16 - Special Regulations

The ten run rule is mandatory in all contests.

The re-entry rule and the use of a courtesy runner for the pitcher and catcher shall follow state rules.

Section 17 - Incomplete Contests

Any contest on all levels that is suspended for any reason shall be considered an official regulation (complete) game if the losing team has had an opportunity to hit for five full innings. If both teams have not had an equal opportunity to hit after five innings, the contest will revert to the last full completed inning. Exception: the home team has taken the lead in a partially-completed inning in the fifth inning or beyond (declared winner).

Any game that is not an official regulation game (four and one-half innings if the home team is ahead or five innings if the visiting team is ahead) will be considered a suspended game and shall be continued from the point of suspension.

All varsity tie contests that are official regulation games will be continued at the point where the game was suspended at the same site (or by agreement) on the first open date.

Sophomore and freshman official regulation tie contests will be determined on a .5 won and .5 loss basis in the standings and will not be replayed.

Section 18 - Postponed Contests

The decision whether or not to play when weather and ground conditions are doubtful rest on the judgment of the host school.

Postponed contests are to be played the next day. If games are continually postponed, they are automatically rescheduled in the order of postponement as set by the Athletic Directors.

State Tournament contests take preference over regularly scheduled Conference contests.

Regularly scheduled or rescheduled Conference contests will always take preference over regularly scheduled or rescheduled non-conference contests.

Conference teams are required to complete their conference schedule, but if late, in season, continued postponements occur; these teams need not play when mutually agreed upon unless any contest has a bearing on the Conference Championship.

In the event the host field is unplayable and the visiting location is playable, the contest is to be played at the available field whenever possible.

The varsity contest will take priority over lower levels with both fields and umpires.

This is followed in the priority of the sophomore level and the freshman level.

If a contest is moved to the alternate site, the umpires scheduled for the lower level contest will be used on the varsity level, only if the scheduled umpires for the varsity contest cannot be moved to the new location, and if the lower level umpires are determined competent to handle varsity level competition. This decision will rest with the assignment chairman for that school and the Athletic Director.

This also applies to doubleheaders. In the event that both sites are not playable for a double header, then the contests are to be made up in a doubleheader format at the site of the original host school or to be made up on individual days with both individual contests to be played at the site of the original host school.

In the event a contest is moved to the visitor's site from the original site due to field availability or playing conditions, the schedule remains intact for remaining contests.

Varsity contests are to be played first with sophomore and freshman contests following in priority. Varsity contests are to be moved to the first available playing facility.

Section 19 - Doubleheaders

Doubleheaders will be scheduled in the East Suburban Catholic Conference. When a doubleheader is scheduled, each team will assume the role of the home team.

The host school will be the home team for the first game, and the visiting school will be the home team for the second game. The doubleheader host school will supply baseballs for the doubleheader.

Communication should take place concerning the amount of time between contests. It is recommended that fifteen (15) minutes be allowed for necessary adjustments between contests.

Section 20 – Use of Extra Hitter

Sophomore and Freshman levels may use an "extra hitter" as defined in addendum EH2012.

CONFERENCE GIRLS SOFTBALL SPECIFIC RULES

Section 15 - Incomplete Contests

Any contest on all levels that is suspended for any reason shall be considered an official regulation (complete) game if the losing team has had an opportunity to hit for five full innings. If both teams have not had an equal opportunity to hit after five innings, the contest will revert to the last full completed inning. Exception: the home team has taken the lead in a partially-completed inning in the fifth inning or beyond (declared winner).

Any game that is not an official regulation game (four and one-half innings if the home team is ahead or five innings if the visiting team is ahead) will be considered a suspended game and shall be continued from the point of suspension.

All varsity tie contests that are official regulation games will be continued at the point where the game was suspended at the same site (or by agreement) on the first open date.

Junior varsity official regulation tie contests will be determined on a .5 won and .5 loss basis in the standings and will not be replayed.

Section 16 - Postponed Contests

The decision about playing when weather and ground conditions are doubtful rests on the judgment of the host school until the umpire takes charge of the contest. Postponed contests are to be played the next day, if possible.

If contests are continually postponed, the Athletic Directors should reschedule them in the order of postponement as set. State Tournament contests take preference over scheduled Conference contests.

Conference teams are required to complete their conference schedule, but if continued postponements are late in season, these teams need not play when mutually agreed upon unless any game has a bearing on the Conference Championship.

If a contest is moved to the alternate site, the umpires scheduled for the lower level contest will be used on the varsity level, only if the scheduled umpires for the varsity contest cannot be moved to the new location, and if the lower level umpires are determined competent to handle varsity level competition. This decision will rest with the assignment chairman for that school and the Athletic Director.

This also applies to double headers. In the event that both sites are not playable for a double header, then the contests are to be made up in a double header format at the site of the

original host school or to be made up on individual days with both individual contests to be played at the site of the original host school.

In the event a contest is moved to the visitor's site from the original site due to field availability or playing conditions, the schedule remains intact for remaining contests.

3. Quality of competition
4. Season record
5. Vote of coaches who have wrestlers in the same weight class

EAST SUBURBAN CATHOLIC CONFERENCE SEEDING CRITERIA FOR WRESTLING

1. Conference record which includes head to head competition (This will be matches contested in the Mega Duals)
2. Season record (Overall record)
3. Record versus common opponents
4. Returning champion or runner up in the same weight class as last year
5. Vote of coaches who have wrestlers in that weight class

(Obviously #04 does not fit the freshman level and might not fit the junior varsity level)

When figuring a wrestler's record, it should be done at the weight class that he is going to enter. A wrestler's overall record is every match he has wrestled. It should be understood that when a wrestler comes down in weight class (say from 112 pounds to 103 pounds), his record should also come down with him. However, the converse is not true for a wrestler going up a weight class (say from 112 pounds to 119 pounds). The record at 112 pounds does not go up.

A WRESTLER IS ENTERED IN THE CONFERENCE WRESTLING TOURNAMENT AT ANY ONE OF THE THREE LEVELS WHEN THAT INDIVIDUAL MEETS THE SCALE REQUIREMENTS AT THE WEIGH IN.
